

Mounting kit NM Isovent

■ Use

NM Isovent mounting kits are designed for simple and comfortable connection of heat-insulated air ducts to the spigots of various VENTS ventilation equipment. The mounting kit consists of flanges and matching self-drilling screws as well as mounting clamps for air duct fixation.

The flanges of **NM Isovent** mounting kit ensure tight connection of all the heat-insulated air duct components to the ventilation equipment spigots and prevent insulation delamination in the connection points.

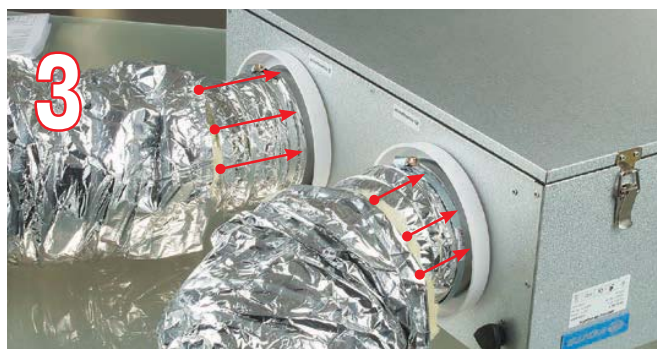

■ Mounting example of the heat-insulated air ducts with **NM Isovent** mounting kit

■ Cover the air handling unit spigots with the flanges from **NM Isovent** mounting kit and fix those with self-drilling screws with hexagon washer head.

■ Cover the air handling unit spigots with the inner hoses of the heat-insulated air ducts and fix those with metal clamps (special accessory).

■ Tuck the inner insulation layer of the air ducts under the flanges of **NM Isovent** mounting kit.

■ Cover the flanges of **NM Isovent** mounting kit with inner hoses of heat-insulated air ducts by pressing the hoses tightly against the air handling unit casing and fixing those with clamps (included into delivery).

■ Tighten the connection point between the inner hose of the heat-insulated air ducts and the flanges of **NM Isovent** mounting kit with clamps.

■ Heat-insulated air ducts have reliable connection to the air handling unit spigots

The unit is ready to operate!

Design

The flanges of **NM Isovent** mounting kit are made of high-quality impact-resistant polystyrene. The flanges are connected to the ventilation equipment spigots with self-drilling screws with hexagon washer head.

Modifications

NM Isovent mounting kits are available in two modifications:
NM Isovent 125 – compatible with round Ø 125 mm air ducts;
NM Isovent 150 – compatible with round Ø 150 mm air ducts;

Overall dimensions

Model	D1, mm	D2, mm
NM Isovent 125	129	141
NM Isovent 150	154	170

Delivery set

NM Isovent mounting kit delivery set includes:

- | | |
|---|---------|
| Flange | 2 items |
| Self-drilling screws with hexagon washer head | 8 items |
| Mounting clamp | 2 items |
| Packing | 1 items |
